PROFILE SUMMARY

Project Manager with over 8 years of experience engineering data-driven project governance for global US Healthcare and SaaS organizations, complemented by foundational on-ground PMO and cross-border logistics experience across the UAE, KSA, and Iraq.

Highly experienced in working closely with Senior Leadership, VPs, and top management to drive strategic governance, resolve crises, and orchestrate complex, large-scale mobilization projects.

Key Achievements:

- ✓ Architected dual-tier Salesforce governance dashboards and orchestrated a centralized data migration for 1000+ users, eliminating reporting bottlenecks and earning direct commendation from US Senior Leadership.
- ✓ Spearheaded the end-to-end technical mobilization for a strategic branch setup in Iraq, auditing massive equipment portfolios to ensure 100% compliance with stringent international and UAE safety regulations.

WORK EXPERIENCE

Project Lead / Project Controller

Voya Financial – Benefitfocus | Bengaluru, India | June 2025 – Present

- **Executive Stakeholder Management:** Work directly alongside VPs and Senior Leadership, consolidating complex portfolio data into high-level presentation templates for critical bi-weekly executive briefings.
- **Independent Project Lifecycle:** Direct end-to-end project lifecycles and govern stringent SLA compliance, ensuring 100% on-time delivery despite high-pressure timelines and shifting requirements.
- **Project Lifecycle & Systems Governance:** Direct end-to-end project lifecycles within Salesforce (from sandbox testing to production deployment), while enforcing agile issue tracking and operational access management via JIRA and ServiceNow.
- **AI Integration & Process Engineering:** Champion enterprise knowledge management by architecting standardized SOPs within Confluence, proactively leveraging certified Prompt Engineering skills to automate documentation workflows and accelerate cross-functional data analysis.
- **Key Projects:**
 - **Dual-Tier Salesforce Governance Suite:** Architected a comprehensive reporting infrastructure, delivering high-level strategic dashboards for bi-weekly executive briefings and granular capacity analytics to optimize operational resource management.
 - **Power Automate Cost Optimization:** Engineered a scalable data pipeline to extract metrics directly from existing Power BI datasets, successfully circumventing restrictive Salesforce API limitations and avoiding redundant enterprise licensing costs.
 - **SharePoint Unification & Change Management:** Spearheaded the centralization of fragmented enterprise data for 1000+ users; standardized folder taxonomies and cross-trained tenured team members to drive 100% on-time delivery.

EDI Configuration Analyst

PlanSource | Bengaluru, India | September 2024 – May 2025

- **Client Management & Technical Liaison:** Served as the primary technical point of contact between brokers, carriers, and enterprise clients, leading cross-functional troubleshooting and escalation protocols via Salesforce to minimize integration downtime.

- **Global UKG Infrastructure Integration:** Spearheaded the end-to-end implementation and renewal of complex EDI setups (SFTP, FTP) for high-profile global UKG clients, achieving a 100% QA accuracy rate during onboarding phases.
- **Compliance & QA Governance:** Architected secure data mapping setups (SFTP, FTP), ensuring 834 transactions maintained strict HIPAA compliance via Optum verification tools and achieving a 100% QA accuracy rate during high-profile carrier onboarding.
- **Risk Mitigation:** Led cross-functional troubleshooting and escalation protocols using Salesforce tracking, actively minimizing integration downtime and protecting project delivery timelines.
- **Key Projects:**
 - **AI-Powered QA Automation (Copilot Studio):** Engineered an intelligent automation bot using Microsoft Copilot Studio to dynamically synthesize complex, system-ready test data based on varied Carrier scenarios.
 - **Process Engineering & Efficiency:** Eradicated manual Excel configuration workflows (eliminating 16+ mandatory data columns per test entity), drastically accelerating system testing cycles for both US and India delivery teams.

Senior EDI Analyst

The Retirement Plan Company, LLC | Gurugram, India | August 2022 – September 2024

- **Integration Lifecycle Management:** Owned the complete end-to-end implementation lifecycle of US Healthcare B2B transactions (Medical, Dental, Vision) across platforms including Selerix and Sterling Integrator.
- **Process Engineering & Governance:** Appointed to the internal Standards and Metrics Committee; collaborated cross-functionally to re-engineer legacy operational protocols and improve data delivery mechanisms across ANSI X12, XML, and JSON formats.
- **Key Projects:**
 - **AI-Driven Workflow Automation:** Conceptualized and deployed an intelligent enterprise chatbot utilizing Microsoft Power Virtual Agents within MS Teams; successfully eliminated 100% of naming convention errors and enabled automated SOP retrieval during the high-volume Open Enrollment cycle.
 - **Financial BI Reporting Suite:** Engineered real-time Power BI reporting dashboards integrated directly with SQL databases to automate stakeholder invoicing cycles, drastically reducing manual data manipulation hours for the finance and operations teams.

Analyst

SitusAMC | Gurugram, India | December 2020 – August 2022

- **Data-Driven Operational Support:** Executed deep-dive data analysis and cross-functional reporting, ensuring high data integrity and supporting senior leadership in strategic decision-making.
- **Streamlined Reporting Workflows:** Leveraged advanced Microsoft Excel and analytical tools to consolidate complex datasets, reducing report generation time by 80%.
- **Risk & Compliance Monitoring:** Assisted in auditing operational data to ensure adherence to internal quality standards and regulatory compliance frameworks.

Project Coordinator & Compliance Lead (PMO)

Al Faris Group | Dubai, UAE | September 2019 – December 2020

- **Digital Governance & Document Control:** Established a centralized technical asset repository using Smart Solve DMS; maintained rigorous version control for blueprints, reports, and drawings, ensuring real-time access for cross-functional engineering and maintenance teams.
- **Compliance & Asset Integrity:** Directed the lifecycle management of lifting gear certifications in partnership with TUV Rheinland and CarlStahl; executed weekly/monthly group-wide audits to maintain 100% compliance with UAE safety regulations, significantly reducing operational risk.

- **Technical Procurement & Inspection:** Orchestrated the technical onboarding of new heavy machinery (Liebherr, Sany, Tadano); collaborated with Purchasing and Engineering to procure mission-critical lifting accessories and arranged authorized 3rd-party inspections for immediate deployment.
- **Cross-Border Logistics Coordination:** Managed complex inter-branch equipment transportation and material requisitions across KSA, Iraq, and UAE; maintained daily technical registers and activity logs to ensure zero downtime in regional operations.
- **HSE Reporting & Stakeholder Management:** Partnered with the HSE division to transform incident data into actionable case studies; presented weekly technical risk and safety reports to Senior Leadership and stakeholders to drive continuous improvement in yard operations.
- **Key Projects:**
 - **Strategic Branch Mobilization (Iraq):** Spearheaded the end-to-end technical mobilization and logistics for the initial Iraq branch setup; personally audited 50+ units of heavy equipment and accessories, ensuring 100% compliance with international shipping and operational standards.
 - **Data-Driven Process Optimization:** Re-engineered the Technical Division's reporting framework by developing a NetSuite-integrated Power BI dashboard; improved visibility into engineer inspection cycles and achieved a 99% improvement in on-time certification renewals.

EDUCATION

SVKM's Narsee Monjee Institute of Management Studies (NMIMS)
MBA | Information Technology and System management | June 2022 – July 2024

Deen Dayal Upadhyaya Gorakhpur University (DDU)
B. Com | Commerce | April 2013 – May 2016

SKILLS & CERTIFICATION

- **Core Competencies:**
 - Executive Collaboration: Top Management & C-Suite Reporting, Stakeholder Management, Strategic Alignment.
 - Execution & Delivery: Independent Project Management, Event & Branch Mobilization, Cross-Border Logistics.
 - Crisis Management: High-Pressure Problem Solving, Risk Mitigation, Zero-Drama Conflict Resolution.
- **Tools & Technologies:** Salesforce (Reports, Dashboards), Power BI, Power Automate, Microsoft Copilot Studio, draw.io, Confluence, NetSuite, Smart Solve DMS.
- **Domain Expertise:** US Healthcare Integration, Electronic Data Interchange (EDI - ANSI X12, XML, JSON), SaaS Implementation, Heavy Lifting Industry MENA Region.
- **Certifications & Training:** Scrum Basics, AI Fluency, Predictive Project Management, HIPAA Compliance

PERSONAL DETAILS

- **Date of Birth:** June 5, 1996 (Age: 30)
 - **Nationality:** Indian
 - **Passport Number:** AU756600
 - **Passport Expiry:** 08/07/2026
 - **Marital Status:** Single
 - **Visa Status:** Open to Employment Visa
